

## **FVPCA: 2007 DOQ-1**

### **Fox Valley PC Association**

#### **Downloads of the Quarter – March 2007 (First Session)**

See more detailed program descriptions within each folder

#### **Browsers**

**Mozilla Firefox 2.0.0.2:** Mozilla Firefox is a fast, full-featured Web browser that makes browsing more efficient than ever before.

#### **DOM Archives**

**May 1997:** Paint Shop Pro Ver. 3.0 is a Photo Retouching, Painting, Image Format Conversion, and Screen Capturing program.

**March 1998: Jigsaw:** Jigsaw puzzle game; **Slam:** Air hockey type game

**August 2000: Sseize:** Screen capture program with features beyond Windows "Print Screen"; **Treeprt:** Update to DOS's old tree.com program allows you to print or save the directory tree to a file.

**March 2002: Belarc Advisor:** (an older version of) the handy PC inventory program; **Image Resizer (IR.EXE):** allows resizing of images.

**Misc: Post-It:** This Windows utility allows the user to create and manage reminder notes. **Winzip204G:** The DOS version of PZUNZIP, Includes **AltPage** which allows output printing to odd or even pages, (double sided printing in DOS). 204G allowed spanning to multiple disks. Handy back in the day of 1.44 MB floppies. **Winzip 8.0:** an earlier version on WinZip, the file compression utility.

#### **Drivers**

**Nvidia Drivers for 2000 or XP: Versions: 41.09 and 53.03 for about all Nvidea video cards...**

#### **FVPCA Programs:**

There were no Programs placed here in the 1<sup>st</sup> Session of DOQ... Look at future DOQ's

#### **Games**

**CSudoku:** a version of the popular puzzle game 9 squares with 9 boxes...

#### **Graphics**

**FastStone Capture 5.3:** FastStone Capture is a program that can be used to capture screen images that you want to place in a document, a brochure, an e-mail message, a slide show and for lots of other things. You can even use it to capture images from a slide show while the slide show is running.

#### **Music**

**WinAmp 5.33:** Nullsoft Winamp is a fast, flexible, high-fidelity music and video player for Windows. Winamp supports MP3, CD, WAV and other audio formats, custom appearances called skins, plus audio visualization and audio effect plugins. additional features including free-form skins, a new decoder, built-in cross fade, and an advanced Media Library Manager...

#### **Networking**

**Look@LAN 2.5:** Advanced Network Monitor, it allows you to monitor your net in few clicks. Extremely easy to use and very fast in discovering your network's active nodes. Full of relevant features such as: auto-detect of network configuration, monitoring, reporting, trapping, statistics and graphs, network tree view, network log, proof single node scan, os detection and more...

## **FVPCA: 2007 DOQ-1**

**NetStumbler 0.4.4:** A tool for Windows facilitates detection of Wireless LANS using the 802.11b, 802.11a and 802.11g WLAN standards. It runs on Microsoft Windows from 98 on.

**PortDetective:** Port Detective uses the latest in Internet technology when it comes to figuring out what ports on YOUR computer are blocked or restricted, and it can even tell you what ports are in use!

### **Operating Systems**

**(Installation may destroy prior OS on hard drive. Please exercise CAUTION when installing replacement operating systems on your computer)**

**Free BSD:** This is not the actual download but a link to resources for BSD

**FreeNAS:** An ISO file to create an installation CD... FreeNAS will take a spare PC and overwrite the Hard Drive, converting it into a Network Accessible Storage (NAS) device. You will need an iso image write to create the CD. (Nero Tools.)

**THIS WILL OVERWRITE ALL DATA ON THE HARD DRIVE! MAKE A BACK-UP IF YOU WANT TO RESTORE THE DRIVE TO A PRE-NAS INSTALLATION STATE. (A Ghost or Acronis Image...)**

### **Photo**

**FastStone MaxViewer:** a fast, stable, user-friendly image browser, converter and editor. It has a nice array of features that include image viewing, management, comparison, red-eye removal, emailing, resizing, cropping and color adjustments.

**IrfanView:** a very fast, small, compact and innovative FREEWARE (for non-commercial use) graphic viewer for Windows 9x/ME/NT/2000/XP/2003/Vista.

**Media Purveyor Lite:** a completely free program that offers unlimited file search, directory browsing, media viewing and slideshows and conventional image editing operations.

**Microsoft Photo Info:** enables easy editing of "metadata" for digital photographs from inside Windows Explorer.

**StudioLine PhotoBasic3:** This image managing and editing program is anything but basic. It's a kind of jack-of-all-trades for handling digital photographs.

### **Security**

**Ad-Aware Personal SE 1.06:** With the ability to scan your RAM, Registry, hard drives, and external storage devices for known data-mining, advertising, and tracking components, Ad-Aware SE easily can clean your system, allowing you to maintain a higher degree of privacy while you surf the Web

**AVG Free 7.5:** The popular FREE antivirus program that allows scheduled updates and scans of you PC.

**Ccleaner 1.37:** a freeware system optimization and privacy tool. It removes unused and temporary files from your system - allowing Windows to run faster, more efficiently and giving you more hard disk space.

**Comodo Firewall 2.4 (Win2k or XP):** A free personal firewall program. Includes the user guide in PDF format.

**Password Assistant 2.0:** manages and generates passwords.

**Password Spectator 3.20:** Password Spectator is a software that lets you see the actual password behind the asterisks.

**SpyBot Search & Destroy 1.4:** detects and removes a multitude of adware files and modules from your computer. Spybot can also clean program and Web-usage tracks from your system, which is especially useful if you share your computer.

### **Upgrades**

**XP Service Pack 2:** If you do not have a speedy connection, you can try this to upgrade XP to SP2. Be sure to have a decent backup before running this program

**Utilities**

**7-Zip:** 7-Zip is a file archiver with the high compression ratio. The program supports 7z, ZIP, CAB, RAR, ARJ, LZH, CHM, GZIP, BZIP2, Z, TAR, CPIO, RPM and DEB formats. Compression ratio in the new 7z format is 30-50% better than ratio in ZIP format.

**BelArc:** The Belarc Advisor builds a detailed profile of your installed software and hardware, missing Microsoft hotfixes, anti-virus status, CIS (Center for Internet Security) benchmarks, and displays the results in your Web browser.

**DoPDF 5.0:** installs itself as a virtual printer driver so after a successful installation will appear in your Printers and Faxes list. To create PDF files, you just have to print your documents to the doPDF pdf converter.

**FastStone Capture 5.3: (also in Video above):** FastStone Capture is a program that can be used to capture screen images that you want to place in a document, a brochure, an e-mail message, a slide show and for lots of other things. You can even use it to capture images from a slide show while the slide show is running.

**Gadwin PrintScreen:** supports the capturing of the entire screen, the active window, the client area, or a specified rectangular selection. You can choose to copy the captured image to the clipboard or to auto-save it into a default directory of your choice.

**IZArc 3.7:** File compressor-decompressor; Supported formats:

Packing / unpacking: 7z, ZIP, GZIP, BZIP2 and TAR . Unpacking only: RAR, CAB, ISO, ARJ, LZH, CHM, Z, CPIO, RPM, DEB and NSIS

**JKDefrag v3.7:** JkDefrag is a free defragmentation utility that's more advanced than the native tools in Windows. In fact, some of its more sophisticated features are features you usually only see in defragmentation software you pay for.

**NewSSID:** Use to reset the SSID on your PC, making it appear as a unique device on a network.

**PC Inspector File Recovery:** Depending on how your files were lost, it may be hard to recover them. This data recovery program recovers lost files and finds partitions automatically, even when the boot sector of your machine has become damaged or erased.

**Printer Anywhere:** Want to print a document directly on a buddy's printer, anywhere in the world? If you're both online, you can do it with PrinterAnywhere.

**RegClean:** Shareware... see note; Utilizes the latest and best registry repair and optimization technology to ensure your system is operating at its best, 24 hours a day, 7 days a week.

**RegMechanic 5.2:** Shareware... see note; With Registry Mechanic you can safely clean, repair and optimize the Windows registry with a few simple mouse clicks!

**XPKey Finder:** View the Product Key information for the MS OS on your machine.

**Video:** Empty folder this quarter
