

## FVPCA: 2007 DOQ-2

### Fox Valley PC Association

#### Downloads of the Quarter – June 2007 (Second Session)

See more detailed program descriptions within each folder

#### Browsers

**Opera 8.5:** This Internet browser provides an e-mail client with spam-blocker, IRC-compatible chat, newsreader, RSS newsfeeds, integrated Google search, pop-up blocker, mouse gestures and keyboard shortcuts.

#### Communications

**FaxTastic 2.3** Fax documents from your computer without a modem. Not sure if this is shareware or not... Notes conflict: Free or \$20...

#### Drivers

**4-in-1 drivers** - are required for most motherboards with via chipsets. They provide enhanced VIA chipset support under MS Windows. Check the release notes in the files to see what's changed. Hyperion is the new name for the 4-in-1 drivers.

**Driver Detective:** This is not freeware! However, you can use it to scan your drivers and it will show you what drivers are out of date. You can then look at the list and do your own search. If you buy it, it is supposed to get them for you.

#### Graphics

**Omega Drivers for ATI Cards:** The Omega Drivers are compatible with all ATI Radeon cards: (it doesn't matter if they are DDR, SDR, PCI, PCI-E, AGP, Mobile, Retail, OEM or 3rd Party)

#### Operating Systems

**(Installation may destroy prior OS on hard drive. Please exercise CAUTION when installing replacement operating systems on your computer)**

**FreeDos** - Official FreeDOS 1.0 - updated

#### Security

**RoboForm:** Roboform is the top-rated Password Manager and Web Form Filler that completely automates password entering and form filling.

**CMOSPwd:** CmosPwd decrypts password stored in cmos used to access BIOS SETUP. With CmosPwd, you can also backup, restore and erase/kill cmos.

#### Upgrades

**Adobe Reader 8.1:** Adobe's Acrobat Reader 8.1 is the latest release of this PDF viewing tool.

#### Utilities

**Kill disk:** Active@KillDisk is a powerful compact DOS utility that allows you to destroy all data on hard and floppy drives completely, excluding any possibility of future recovery of deleted files and folders.

**Windows Memory Diagnostic:** Windows Memory Diagnostic tests the Random Access Memory (RAM) on your computer for errors. If you are experiencing problems while running Windows, you can use Windows Memory Diagnostic to determine whether the problems are caused by failing hardware, such as RAM or the memory system of your motherboard. If Windows Memory Diagnostic reports any errors, then one or more memory components is failing.

**HiJackThis:** (Version 1.99.1) lists the contents of key areas of the Registry and hard drive--areas that are used by both legitimate programmers and hijackers. Unless you're sure about what you're doing, you always should consult with

knowledgeable folks before deleting anything. This is a diagnostic scanning tool; submit your results for analysis.

**Audio Caller ID:** NOT FREEWARE: This utility can announce a caller's name through your computer's speakers, e-mail you when specified calls are received, and block calls you choose. You can also assign prerecorded sounds to be played for specified callers. Additionally, the program can publish your call log to your personal Web site for remote viewing. License Shareware \$24.95 to purchase

**Cbrom/Cbrom6:** This gives you the opportunity to exchange the components of an Award Modular bios.

**BMPtoEPA:** Change/Create the AWARD BIOS Boot-Logo (EPA)

**CDCheck:** A utility for the prevention, detection and recovery of damaged files on CD-ROMs with an emphasis on error detection.

**Copy2Clip:** Copy2Clip enables you to copy file names from Windows Explorer, by simply selecting one or more files, and selecting Copy2Clip from the right click menu. The program can copy the file names in a variety of different patterns, using the full name with path, just the name, file names with sizes and more.

**EasyCleaner:** A small program which searches the Windows registry for entries that are pointing nowhere.

**Expired Cookies Cleaner** is a freeware utility for removing unused cookies from your computer.

**Vcool:** A CPU utility that will display CPU information in your task tray

**Folder Size for Windows:** Folder Size for Windows Rel 2.3 adds a new column to the Windows Explorer details view that displays the sizes of files and folders. A service scans your hard disk in the background and caches the results.

**RegCure:** create an application that can accomplish the complicated task of fixing computer errors, prevent freezing, and boosting the performance of your PC. May need to subscribe after scan...

**ForceDelete 0.3A:** ForceDelete is a free and reliable application that has as a main purpose the removal of files or the force deletion of files that may be used by other programs and cannot be normally deleted.

**MemTest86:** Here is some pre-compiled distributions of memtest86+.

Memtest86+ comes in three different ways, first is a pre-build bootable ISO, second is a bootable binary and third an installable package for creating a bootable floppy. Third version are compressed in .zip and .tar.gz.

**SeeThruClock:** Displays an Analog, Circular, Translucent Clock on Windows 2000 or XP Desktop Version 2005.02

**WCPUID:** A utility which gives you a lot of practical info about your CPU, chipset, memory and other motherboard settings.

**StartupDelayer:** Startup Delayer allows you to setup how many seconds after Windows has started, to load each program.

**Free Easy CD/DVD Burner:** Burn data, video and audio (WAV, WMA, MP3, OGG, FLAC, AAC, M4A). Burn and save ISO files, copy your DVDs. grab from CD AUDIO to MP3. Support for dual-layer DVD, CD-R, CD-RW, DVD-R, DVD+R, DVD-RW, DVD+RW.

**TestDisk:** A free data recovery software! It was primarily designed to help recover lost partitions and/or make non-booting disks bootable again when these symptoms are caused by faulty software, certain types of viruses or human error (such as accidentally deleting your Partition Table).

## FVPCA: 2007 DOQ-2

**PhotoRec:** A Photo Recovery tool/file data recovery software designed to recover lost files including video, documents and archives from Hard Disks and CDROM and lost pictures (thus, its 'Photo Recovery' name) from digital camera memory. PhotoRec ignores the filesystem and goes after the underlying data, so it will still work even if your media's filesystem has been severely damaged or re-formatted.  
*Packaged with TestDisk*

**Windows Registry Repair.** This program scans your Windows registry for invalid or obsolete information. It helps you identify registry errors with a few simple clicks and includes safe guards to prevent entries being modified without your permission. Limited functionality for this shareware. \$9.99 to unlock...

### Video:

**ICUII 7.7.5:** A simple, easy to use Videochat program. *21 day evaluation copy*
